

# The Fountas & Pinnell Calculator/Stopwatch\*

With the push of a button, you will be able to see students' reading rate, percentage of accuracy, and self-correction ratio. Specially designed for the *Fountas & Pinnell Benchmark Assessment System*, the **F&P Calculator/Stopwatch\*** can be used by any teacher who assesses students using running records.

1. Simply press **Start Time** as the student begins oral reading and **End Time** when the reading is complete, then proceed as follows:
2. Press **RW** and enter the number of **Running Words**.
3. Press **#Errors** and enter the number of **Errors**.
4. Press **#SC** and enter the number of **Self-Corrections**.
5. Press **Time** to get **Elapsed Minutes or Seconds**.
6. Press **WPM** to see **Words Per Minute**.
7. Press **Accur%** for **Percentage of Accuracy**.
8. Press **SC** to get the **Self-Correction Ratio**.
