

Title: Alvin and the Chipmunks

By: Brianna M.

Say hola to Theodore a chubby and cute guy. Meet Simon a funny and smart guy. And put away your books for Alvin the funiest little chipmunk! And here comes uncle Eian who works with Dave. Dave who is kind of like their chipmunks owner, who has a girlfriend named Claire. Those are the characters. Here's how the movie goes...

One day uncle Eian tries to steal the chipmunks to make them do a show to show everybody their fantastic, cute and funny moves. Kids will love this movie, count parents in to they will have fun and laugh too. people will love this part when Dave is looking all over the house for Alvin and guess where he found him... in the dishwasher and he said, "I'm waiting for the rinsicle."

It's a pretty good and funny movie. My favorite parts were when Alvin, Theodore and Simon danced to the song Funkytown, I also liked the part when Theodore says "help me robots chasing me"! I don't think Alvin and the chipmunks is out in theatres anymore, you could try to buy it. I think its \$10-\$20 dollars, or you could rent it. It's rated P.G. You might need your parents to watch it with you.

If you like chipmunks you will love, love this movie. It's sort of a cartoon because the chipmunks talk. And it's kind of a real movie because there's real people. You will have to see this movie to see what solves the problem of uncle E. an stealing the chipmunks. I would give this movie ★ ★ ★ ★ ★ stars!
